PERFINS ON 2d BLUES.

REG POWELL sends details of a very elusive perfin of which he now has a copy on a 2d blue. It is J5790.01 (Edwards') 579 (Tilles1) J<sup>no</sup>S 7,10,8, 10 4½,3,3,4½mm Plate 15.

He has not seen this perfin before and thinks it may be the one which Jennings lists for 1d Plates 166, 181 and 182 but no other values.

Are there any other copies of this perfin in YOUR collection?
